Juan L. Sanchez

SAS Consultant at OCS Consulting

Summary

Juan is an accomplished technical SAS consultant with solid experience in SAS and Business Intelligence (BI). Juan started his career as a JAVA developer and progressed in the area of BI and SAS programming. In his most recent SAS role Juan gained extensive experience in the area of platform architecture, installation, configuration, administration, migration and security.

Industries:
- Finance (Banking & Insurance)
- Government
- Telecommunications

Some of the key skills of Juan are:
- Experience with SAS platform installation, configuration and administration
- Experience with various Business Intelligence tools, both inside and outside SAS
- Extensive technical experience and all-round computer knowledge
- Extensive programming experience with various (object-oriented) languages
- Team player, but able to work independently when required
